ATTACHMENT A**SPECIFIC MEASURES****MEASURE 1 DESIGN FOR INTEGRATION**

Sustainability is essential to design excellence, and vice versa. Give examples of how individual design strategies provide multiple benefits across the full triple bottom line of social, economic, and environmental value.

MEASURE 2 DESIGN FOR COMMUNITY

Sustainability is inextricably tied to the wellness of communities. How does this project contribute to creating a walkable, human-scaled community inside and outside the property lines?

MEASURE 3 DESIGN FOR ECOLOGY

Sustainable design protects and benefits natural ecosystems and habitat in the presence of human development.

MEASURE 4 DESIGN FOR WATER

Sustainable design conserves and improves the quality of water as a precious resource

MEASURE 5 DESIGN FOR ECONOMY
