WHO WE ARE

ABOUT US

Since its founding in 1953, AIA San Antonio has been a leading voice for architecture in Texas. We advocate for great design, effective planning, sustainability, civic leadership, and public engagement. Our members are committed to ethical professional standards, lifelong learning, sustainability and community health and resiliency.

Our Center for Architecture, located in Southtown just minutes from downtown, is our chapter's headquarters. Here we plan a robust annual menu of meetings, lectures, continuing education events, networking opportunities and leadership development. Vibrant networks connect members and allied partners to specific practice niches with premier networking opportunities.

The work of AIA San Antonio is focused on providing member value and enhancing public awareness of the value of architects and design in shaping community.

Together with AIA National, the Texas Society of Architects and chapters across the country, we form one AIA.
